

Science Paper Tools

MINILABS

Remove the Tools

Carefully punch out the Funnel, Ruler, and Sand Scoop along the dotted lines.

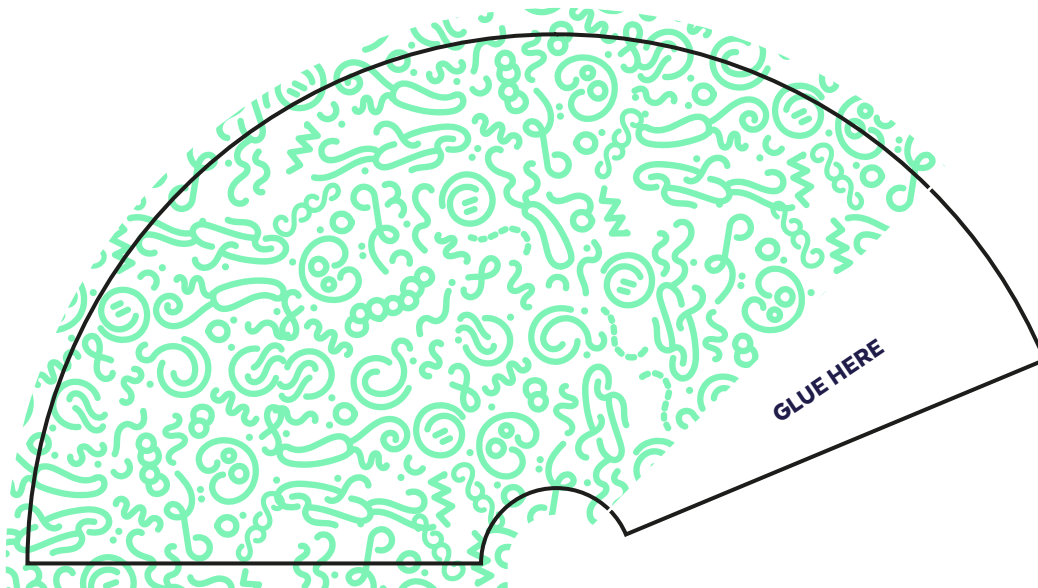

Make the Funnel

- Roll the funnel piece into a cone (like an ice cream cone).
- Keep the colorful side on the outside.
- Use tape or glue to stick the flap down so it stays in a cone shape.

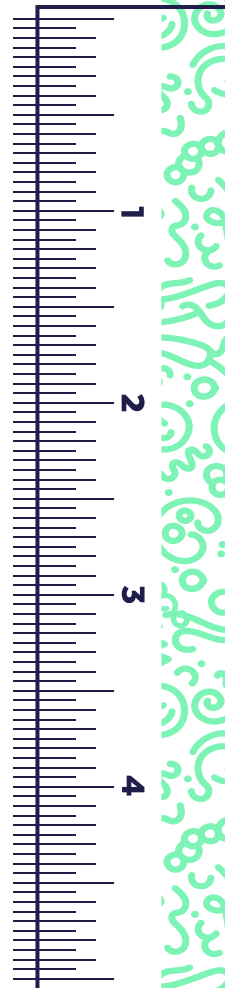

Make the Sand Scoop

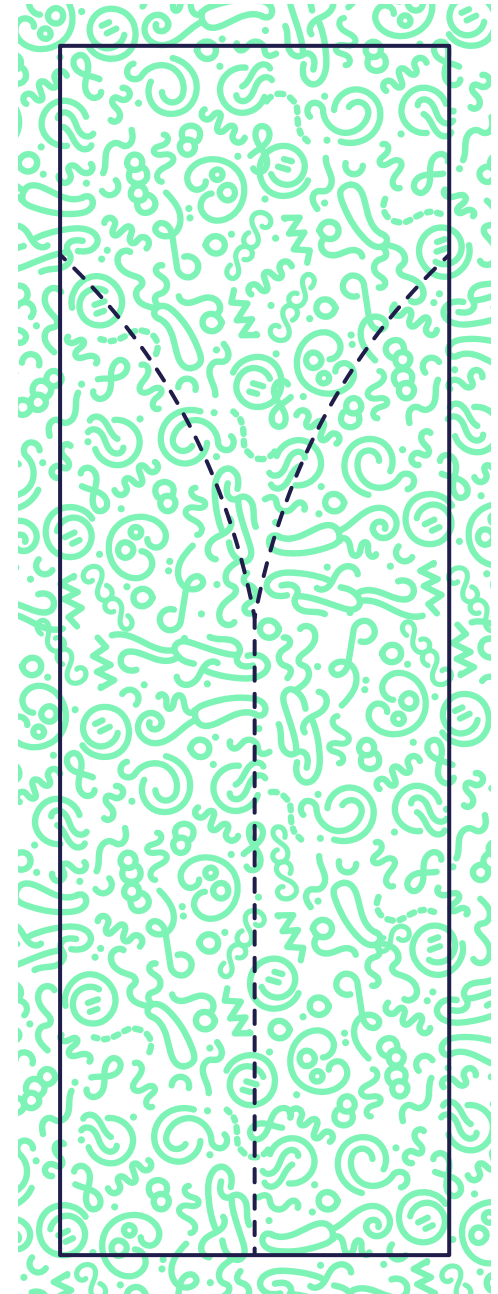

- Fold the paper on the dotted lines to make a handle.
- Tape or glue the handle so the colorful part stays on the outside.
